A Protestant Methodist protracted meeting will be held at Lacey's School-house, 1 1/2 miles west of Warsaw, commencing on Friday before the 2nd Sabbath in September next. July 29

We are requested to give notice that a protracted meeting will be held at the Spring Grove Meeting-house, about six miles from Warsaw on the road to Clinton, commencing on Saturday next, the 12th inst. The public generally are invited to attend.

TO ADMINISTRATORS, &c.

We wish it distinctly understood by administrators and others, that from this time forward, the cash must accompany all notices inserted in our paper. We do not intend this to apply to agents in other counties who become responsible to us for such notices as they may send us. We have a number of small debts due us by administrators, some of them of three years standing, and if they haven't become ashamed of their promises to pay, we at least, are getting tired of listening to their oft-repeated promises. We shall hereafter make no affidavits of publication nor receipt to any man for advertising, until our fees are paid. Our own interest requires this much at our hands, and we wrong no man in asking for what we are justly entitled to. We hope our friends will take this hint—if they don't, we will give them a call from an officer.

Brig. Gen. Kearney has arrived at Jefferson Barracks. He has been appointed to the command of that post by the War Department at Washington.

ST. LOUIS POST, AND MYSTIC FAMILY.—We have received the first No. of a new literary and miscellaneous paper, bearing the above title, published in St. Louis. The Post is issued in quarto form, on a double royal sheet, and in point of neatness and typographical execution, is not surpassed by any paper in the State. The Proprietors of the Post aim to furnish the great West, with a cheap literary family newspaper, which shall supersede many of those frothy periodicals of the Atlantic cities. Two columns will be devoted to the interests of the Sons of Temperance, and a similar space to the Masonic Fraternity and the Order of Odd Fellows respectively, leaving forty-two columns to be devoted to miscellaneous and general news. The Post is edited by Wm. F. Chase and Edmund Flagg—the latter gentleman having been associated for ten years past with the western press and western literature—at the unusually low price of \$2 00 in advance. Send in your names and money for one of the cheapest literary papers in the Union, and a western paper at that. Why should not the West set up for herself in this matter? There is no good and sufficient reason why we should always remain dependant upon the East for our Periodical Literature. We say then, let the people of the West patronize this effort to establish a home literary journal.

On Monday next, the people of this State will be called upon to decide who shall fill the various State and County offices for their respective terms. It will no doubt be a day full of interest to the multitude of aspirants for offices of honor as well as profit, and as they cannot all be elected, at least four-fifths of them will be ready to adopt the old negro's language, and say "blessed is he that expects nothing, for he shall not be disappointed," as the unsuccessful are very apt to try—and make others believe they did not expect to be elected. We would say to them all, however, "keep a stiff upper lip," and wait until the votes are counted, as there is no telling what a day may bring forth.

The Governor has issued his proclamation, recommending the good people of this State, to observe Thursday the 24th day of November next, as a day of thanksgiving to Almighty God, for the preservation of our lives, and for every blessing, both spiritual and temporal, that we enjoy, the abundant fruitfulness of the year, and the protection of our people from the plagues of famine and pestilence. This is very commendable in the Executive, and we hope the people generally will pay a due observance to the recommendation, and offer up sincere thanks for the blessings conferred upon us as a people.

The St. Louis Organ says that Gov. French, of Illinois, has directed the Sheriff of St. Clair county to put a stop to the filling up of the channel between Bloody Island and the Illinois shore, by the authorities of St. Louis, at every hazard.—It says further, it is probable that the military force of St. Clair county has been called out to effect this object. This is a very striking exemplification of the fable of the dog in the manger—the Illinoisians cannot have a good harbor, and they are unwilling to let the people of St. Louis have one. This stands the case.

Too Bad.—The last Springfield Advertiser contains the proceedings of a meeting held in that place the other day, and we notice among other things that a committee was appointed to draft resolutions, &c., and report at a called meeting to be held on the 6th day of August—(that is, to-morrow—SUNDAY!) We had not supposed that the good people of Greene had fallen into such "shockin' bad" habits, as to be holding political meetings on the Sabbath.

Newspaper Change.—John B. Thompson has retired from all connection with the St. Louis Organ, and that spirited paper has passed into the hands of Josiah Anderson and V. Staley. The Organ is to remain neutral in politics. The price of the Weekly is \$1 00.

George W. Dunn, Esq., of Richmond, has been appointed Judge of the 5th Judicial Circuit, vice the Hon. Austin A. King, resigned.

Governor Dead.—Governor Shunk, of Pennsylvania, died at Harrisburg, on the 20th ult.

How much free whiskey will be drank in this State between this time and Monday night? How much in Benton county? Who can tell?

FREMONT, Cedar co. Mo., July 25, 1848.
Messrs. Cameron & Ritchey:—The last Legislature of this State passed a law, creating the office of Probate Judge in the county of Cedar, and under said law, Mr. John E. Hartley, at the then ensuing August election, was elected to fill said office. Shortly afterwards, having concluded to go South, he resigned his office, and the county court thereupon ordered a special election, to fill the vacancy thereby occasioned. My friends urged me to become a candidate for said office, but I told them my practice in that Court was worth more to me than the office would be, and that I would not run for it; but that if they could not get any person to accept of the office, and the people demanded of me to serve them in that capacity, and signified it by electing me, I would not refuse, &c. So the election took place on the 13th of March, last, and my name was put on the poll Books and I was duly elected to fill said vacancy. I thereupon certified under the law the name of the person elected, to the Governor, after which I waited some month and a half, and getting no Commission, I certified to him the second time, and also sent a private letter to him, stating that it was important to the people of Cedar, that said office should be filled; and requesting him on behalf of the people of Cedar to write to me and let me know why it was that the Commission was not sent on—but I have never received any answer from his Excellency. Now, my object in writing this letter is to try and get some sort of response from the Governor, and in furtherance of this object, I hereby request you to publish this letter in your paper and send one copy containing it to his Excellency, John C. Edwards.
Very respectfully, &c.,
S. M. GRANT.

APPOINTMENTS BY THE PRESIDENT.

By and with the advice and consent of the Senate.—Gideon J. Pillow, of Tennessee, (Brigadier General in the United States volunteer service,) to be Major General, April 13, 1847, vice Benton declined.
John A. Quitman, of Mississippi, (Brigadier General in the United States volunteer service,) to be Major General, April 14, 1848, vice Cummings declined.
Caleb Cushing, of Massachusetts, to be Brigadier General, April 14, 1847, vice Pillow, appointed Major General.
Sterling Price, of Missouri, to be Brigadier General, July 20, 1847, vice Davis, declined.

From a letter to a friend in this city, dated on board the U. S. steam frigate Brandywine, Rio de Janeiro, June 20, 1848, we make the following extract:—

"The U. S. steamer Alleghany, which if you remember, was built at Memphis, has arrived and proved every way worthy of the mechanism of the West, though she experienced very heavy weather.
"It will prove gratifying to the friends of the west to know, that she has not proved a failure, but has surpassed their expectations.
"The U. S. sloop-of-war Plymouth has also arrived, having on board the Hon. J. H. Davis, Minister to China; all in good health and expect to go to sea in about a week. We are looking every day for the St. Mary."

From South America.

The New York Sun of the 20th inst., has later accounts from Chili, stating Santiago was visited by another destructive fire on the 12th of April. It commenced on the western side of the Plaza de la Independencia, and the flames, spreading with great rapidity, soon enveloped the beautiful row of buildings called the Portal. The loss of goods alone is estimated at half a million of dollars. Two or three lives are said to have been lost. While the fire was raging a shock of an earthquake occurred. This added to the general alarm, which was further increased by a second fire breaking out in another part of the city.

Improvements are being introduced in the Normal School for the education of teachers for schools in Chili. A school for the education of females has been established at Copiapo.

Gen. Borgonn died on the 28th of March. He was minister of war and marine, and was much esteemed.

Peru.—The revolution reported before as having commenced at the South is denied; only a causeless rumor. General Deustua was to act as Governor of Callao.

Equador.—Fears were continually prevailing on account of the movements of Gen. Flores. A partial outbreak had occurred in his favor at Ibarra, but it had been checked. It was the common opinion that he would arrive at Callao in the steamer of May.

Bolivia.—Quiet still reigns there, but its continuance was regarded as dubious in the extreme. Asperity rupture between the Ministry of Olaneta and Gen. Belzu is predicted.

FOREIGN NEWS.

ARRIVAL OF THE EUROPA.

THREE DAYS LATER FROM EUROPE.

Important Intelligence from France.—Plot for another insurrection discovered.—Arrest of the suspected.—Threatened revolt of 40,000 Workmen.—Troubles in Spain.—Ireland.—Arrest of Duffy, Martin, Meagher, and others.—Great excitement.—Cholera in Russia.—March of forces on Moldavia.—Revolt of the Wallachians.—Insanity of Mehemet Ali.—Revolt of Slaves in St. Croix, &c., &c.

New York, July 27, 1848.
The Cunard steamer Europa, arrived here this morning, bringing three days later intelligence from Europe. She sailed on the 14th inst.

FRANCE.
Another plot for an insurrection has been discovered in Paris. The workmen of the "ateliers," intended to revolt on the 14th inst. The day was fixed and every thing was prepared. The city was to have been pillaged.

The Government is in possession of all the details of the plot, and many of the ringleaders in the proposed insurrection, have been arrested. Gen. Cavaignac has every thing in readiness to meet any emergency. Fifteen prefects of departments have been placed under arrest for participation in the conspiracy of June last.—Several of the present Government are in favor of prosecuting to the utmost extent all the suspected members, but others, and among them Cavaignac, firmly oppose this proceeding.

All of the State prisoners have been removed to detached points at a distance from Paris.

The city is completely fortified at all points. It is said that 40,000 workmen intend marching to the Assembly and demanding either to be fed or shot.

SPAIN.
The insurgents are daily gaining ground, and the Government is becoming more and more alarmed.

IRELAND.
The affairs here are rapidly approaching a crisis. Duffy, the editor of the Nation, Martin of the Felon, O'Dougherty, Williams and Roland of the Tribune, and Meagher, have been arrested for sedition. The arrest of the latter caused a tremendous excitement. He would undoubtedly have been rescued but for his own efforts to the contrary, and the arrival of an additional body of troops.

RUSSIA.
The Cholera is making frightful ravages, and is rapidly increasing.
The rumor of the marching of a Russian army on Moldavia is confirmed.

The people of this country had previously risen and declared themselves in favor of a Republican form of Government.

The inhabitants of Wallachia had revolted, and compelled their Prince to abdicate.

PIEDMONT.
The Ministry in this country have resigned in consequence of a difference of opinion on the policy to be pursued, they advocating a temporizing course, whilst a decided stand in favor of war was resolved on.

MISCELLANEOUS.
The Austrian Ministry have resigned. The Communists in Berlin are endeavoring to excite an insurrection similar to that in Paris.

Portugal is tranquil.

Mechemet Ali, the pacha of Egypt is insane.

Disturbances have occurred at Frankfort on the Maine in which several lives were lost.

The war in Italy is conducted on both sides with vigor.

Germany is still greatly excited.

FROM THE WEST INDIES.

New York, July 27.
In St. Croix the slaves continued in open revolt; were burning and ravaging estates, and massacring the whites. It is stated that the blacks were angry because it had been proposed to emancipate them gradually, after a twelve month's apprenticeship. They demanded immediate abolition.

In St. Thomas the Governor fearing a similar outbreak had declared the immediate freedom of the blacks, though the whites had taken the precaution to arm themselves to suppress attempts at insurrection.

In Hayti complete tranquility had been restored. President Soulouque has issued an address congratulating the people on the return of peace. All who had fled were forbidden to return, and their estates declared forfeit.

Congressional.

WASHINGTON, July 27.
Senate.—Mr. Hale offered a resolution calling on the Secretary of War for information in regard to the amount that had been paid to each officer of the army, and omitted in the last army register, which was agreed to.

On motion of Mr. Clayton, the territorial bill was taken up.

Mr. Baldwin offered an amendment giving to all persons deprived of liberty in the territories, the privilege of "Habeas Corpus," and of direct appeal to the Supreme Court.

Mr. Reverdy Johnson addressed the Senate in support of the bill, as the only olive-branch on this exciting question. The debate was further continued by Messrs. Badger, Dix and Calhoun.

The session was prolonged till seven o'clock this morning, when an adjournment took place, not, however, until the compromise bill was adopted by a vote of 33 to 12.

House.—A motion to close the debate on the territorial bill was, after a long discussion, laid on the table.

On motion, the House adjourned.

A CAUTION TO WALKING SWILLS.

TUBS!
A Drunkard on Fire!—Dr. Nott, in his lectures, gives the following account of a young man about twenty-five years of age:—
"He had been an habitual drunkard for many years. I saw him about nine o'clock in the evening on which it happened; but then he was full as usual, not drunk, but full of liquor.
"About eleven o'clock, the same evening, I was called to see him. I found him literally roasted, from the crown of his head to the soles of his feet. He was found in a blacksmith's shop, just across from where he had been seen. The owner, all of a sudden, discovered an extensive light in his shop, as though the whole building was in one general flame. He ran with great precipitation, and on throwing open the door, he discovered a man standing erect in the midst of a widely extended silver-colored flame, burning, as he described, exactly the appearance of the wick of a burning candle in the midst of its own flame. He seized him, (the drunkard,) by the shoulder, jerked him to the door, upon which the flame was instantly extinguished. There was no fire in the shop, nor was there any possibility of any fire having been communicated to him from any external source. It was a case of spontaneous ignition. A general slough soon came on, and his flesh was consumed or removed in the dressing, leaving the bones and a few of the large blood vessels; the blood, nevertheless, rallied around the heart, and maintained the vital spark until the thirteenth day, when he died, not only the most loathsome, ill-favored picture that was ever presented to the human view, but his shrieks, his groans, and his lamentations, also, were enough to rend a heart of adamant. He said he was suffering the torments of hell—that he was just upon his threshold, and would soon enter its dismal cavern; and in this frame of mind he gave up the ghost. Oh! the death of the drunkard! Well may it be said to beggar all description! I have seen other drunkards die, but never in a manner so awful and affecting."

TYPHUS FEVER.—This term is derived from the Greek word *tuphos*—stupor, the disease being characterized by great debility and a tendency in the fluids to putrefaction. This disease is most prevalent in extreme warm weather—and in regions where a very foul atmosphere exists from large decaying masses of vegetable or animal matter, overcoming the vital energies by these overpowering chemical agencies. The first symptoms of this disease are languor, dejection of spirits, depression and loss of muscular strength, soreness, pains in the head and back; the eyes appear full, heavy and yellowish—the temporal arteries throb violently—the tongue is dry and parched, the breath hot and offensive, the urine dark and pale, the bowels costive, the pulse quick, small and hard—and sometimes a great heat, load and pain at the pit of the stomach, and vomiting of bilious matter ensues. Thus clearly establishing it as a type of bilious disease. When these symptoms are discovered, no time should be lost in obtaining a supply of Dr. Bragg's Sugar-Coated Anti-Bilious and Tonic Pills, and use them promptly, according to the directions—and the happiest results may be anticipated.—They do not even require faith in their virtues, as they operate by their own intrinsic merits.
